STRUCTURAL DESIGNER (EIT)

Jarmel Kizel Architects and Engineers, Inc. is a full-service award winning Architectural and Engineering firm with offices in Livingston, New Jersey. At this time, our firm has an opening in our Structural Department for a Structural Designer. We are in a growth mode and we are seeking quality talent to join our firm. We will accept resumes from engineers with 2-5 years of experience and skills as noted below. As a design engineer, you will work closely with the architectural project manager and have the opportunity to become involved in large and exciting projects.

Experience requirements:

- Bachelor of Science in Civil/Structural Engineering
- 2-5 years of structural engineering experience
- Experience in designing structural systems for commercial, multifamily, industrial, retail, and similar buildings
- Must have expertise in designing steel, wood, concrete and masonry with current IBC and ASCE 7 building codes.
- AutoCAD and Revit for drafting; Structural Design software such as RAM, Enercalc, and Excel spreadsheets

Responsibilities will include:

- Developing construction documents, including plans, details and sections, for building and other structures.
- Preparing calculations for steel, wood, concrete, and masonry structural materials utilizing current building codes (IBC and ASCE 7)
- Coordinate directly with architectural and other engineering disciplines
- Survey existing structural systems for analysis of renovation projects
- Visit sites under construction to review progress and prepare field reports

Compensation & Benefits:

- Medical insurance for the employee and family with major contributions by the Firm
- Initial two-week vacation that increases as your time with the firm grows
- A 401k plan with a firm participation
- Generous holidays and personal time
- Disability and life insurance for the employee paid for by the Firm
- Flexible hours

Please send resumes to: careers@jarmelkizel.com
